

Information Bulletin No. IB16-009

April 29, 2016

Reference Syllabus for Welding Examiner and Welding Examiner in Training

As provided for under Sections 15(2) and 15.1(1)(a) of the *Pressure Welders Regulation*, the Safety Codes Council has revised the Welding Examiner Syllabus. The revised syllabus is published as ABSA document AB-94, Edition 2.

As provided for under Section 15(1) of the *Pressure Welders Regulation*, the Welding Examiner Certificate of Competency examination is hereby established:

- 1) Certification candidates that have passed at least one of the four examinations prior to May 1st, 2016, may continue to write examinations under the existing syllabus, AB-94, Edition 1, until April 30, 2018. This will allow affected candidates to continue to write examinations under that syllabus in order to achieve their certification.
- 2) Effective May 1st, 2016, certification candidates who have not previously passed an examination under the existing syllabus are required to write examinations under the revised syllabus, AB-94, Edition 2.

The two syllabi, as well as information about the changes, are available on our website at www.absa.ca.
