

Come join us for the last in our series of: “*CSA Z662 Clause 14 and Annex (I)*” Wake Up and Learn Nov 24, 2017 at ABSA Calgary office.

Learning Component: Canadian Standards Association (CSA) Z662 Clause 14 and Annex (I), Alberta Energy Regulator (AER) Directive 077, IB10-006

The following will be covered:

- CSA Standard Z662 Clause 14 and Annex (I) around materials, fabrication welding, installation, inspection and testing of new steam distribution pipelines.
- Alberta requirements for requirements for Pipelines in the Pipeline Act and Regulations.
- Requirements for Pipelines in the Safety Codes Act and Regulations.
- Relationship between Directive 077 and IB10-006, Design, Construction.
- Inspection and Operation Requirements (IB10-006).
- Failure (Incident) Investigation.
- The construction of new pressure piping.
- Repair/alteration of in-service pressure piping.
- Construction of steam pipelines in accordance with the requirements of CSA Z662 Standard and AER Directive 077.
- Work that can be performed, Piping Design, and your responsibilities.

ABSA also presents private (in-house) sessions of our Wake Up and Learn seminars upon request. In-house seminars reduce the cost of sending multiple employees to one of our public locations for a seminar. We also offer private sessions of our standard seminars as well as customized training seminars.

Coffee will be on and there will be a full breakfast available while you connect with your ABSA representatives.

To register: email training@absa.ca or contact 780.437.7787 ext 3385

See you there!
