Piping or (Repair & Alteration) Surveillance Audit Work Status Form

AB-29c 2026-02

Note:* As provided for under Sections 12 of the Pressure Equipment Safety Regulation, the Administrator may require an applicant to undertake an examination or evaluation by a safety codes officer with respect to any matter concerning the organization, operation and procedures of the applicant related to the application. This form may be used to determine the level of periodic surveillance required for Piping or Repair & Alteration programs.

Note: This form shall only be used by AQP holders of 2000 or 3000 series programs registered with ABSA. This form shall be submitted within a 3 month time window of the recommended surveillance date to reflect the current status of the work. Submissions made earlier will not be accepted.

Please submit this form to the assigned Auditor for the renewal audit. In the absence of any Auditor assigned, this form may be sent to QSCPAdmin@absa.ca

1. Company Name _____
2. Owner AQP No. _____ Expiry Date: _____
3. Company Contact _____ e-mail: _____

Please **select only one** of the following work status conditions:

- ☐ We currently have **active work** which can be accessed and scheduled for a surveillance audit.
- ☐ We currently have no active work, however, we have completed one or more projects since our last renewal/initial audit that **can be reviewed** and assessed for compliance.
- ☐ We have had **no work product** since our last renewal/initial audit and additionally we have no work currently scheduled at this time. We would request that the surveillance audit be cancelled based on the lack of work product for review.

Declaration

We declare that the selection we have indicated reflects the current work status and would be reviewed again during the renewal process. We realize that any incorrect information supplied would impact renewal results and the interval assigned.
